This sheet inspected, Engineer.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1 cubic foot per second.

Actual construction work shall begin on or before June 12, 1926

Proof of commencement of work shall be filed before July 12, 1926

Work must be prosecuted with reasonable diligence and be completed on or before June 12, 1928

Proof of completion of work shall be filed before July 12, 1928

Application of water to beneficial use shall be made on or before June 12, 1930

Proof of the application of water to beneficial use must be filed with State Engineer on or before July 12, 1930

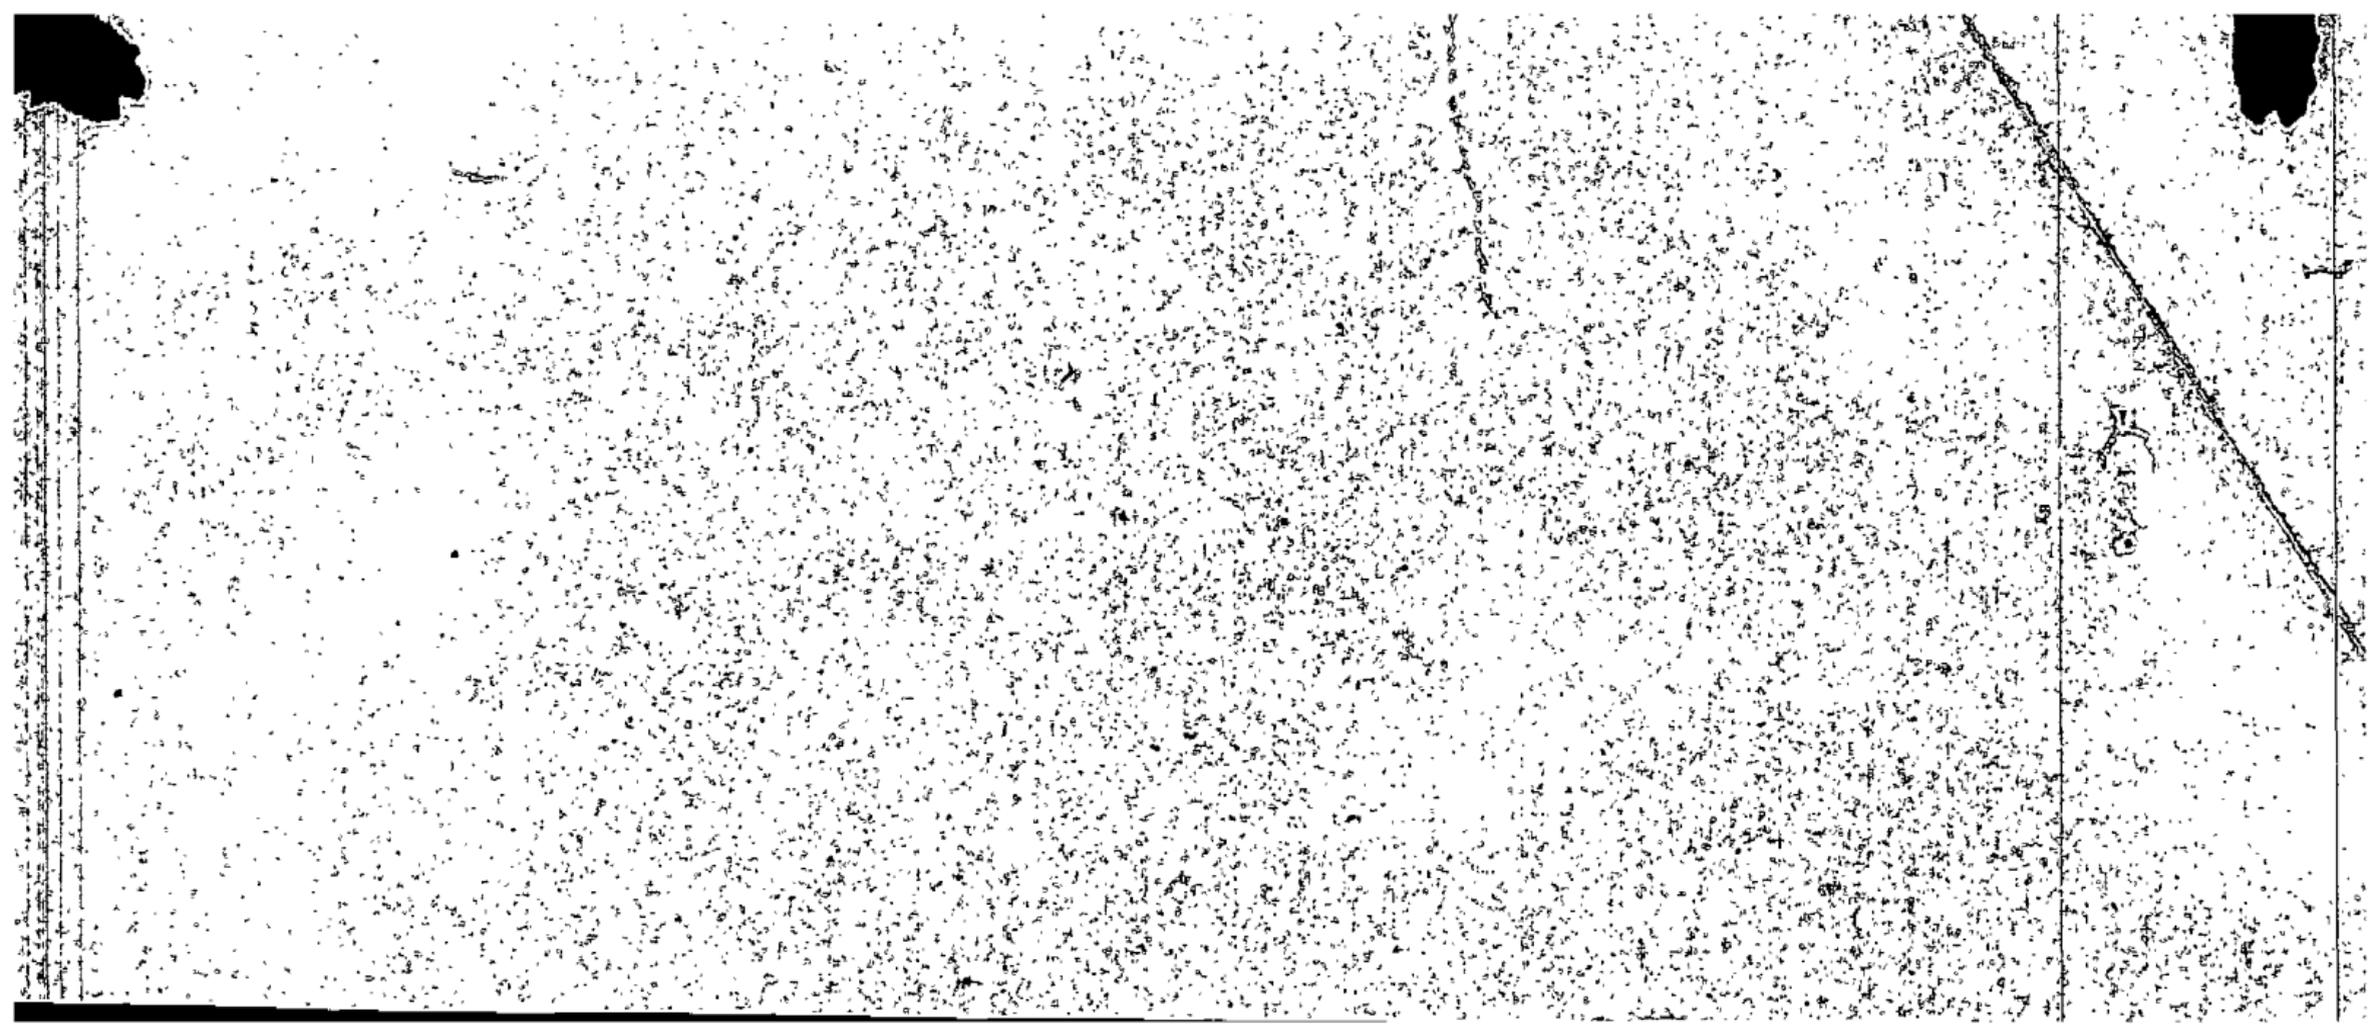

Witness my hand and seal this 12th day of January, 1926. State Engineer. CANCELLED JUN 8 1931 BECAUSE OF FAILURE OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMIT

Compared H. M. P. 111

Cancelled Mar 11 1931 because of failure of applicant to comply with provisions of permit. Re-instated Max 28 1931. Edmund A. Malone

This permit is issued subject to all prior rights and in conjunction with permit No. 6417, the same land being described in both filings. The amount of water herein granted is placed at one cubic foot per second for the full acreage for which application is made, so that such amount of water may be diverted and used in the event that there is a shortage of water in the source described in said permit No. 6417. However, the total amount of water granted from the combined sources named in the two permits shall not exceed the statutory allowance for the maximum acreage of land described therein. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the areas of land which obtain water for irrigation purposes from each source described in these two permits.

A substantial headgate and weir must be installed and maintained at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.

APPLICATIONS FILED SUBSEQUENT TO SERIAL NUMBER 6424,
COME UNDER THE ACT AS PROVIDED BY CHAP.106, STAT.1921.
